# High-volume, high-quality colour printing for businesses in an ultra-compact design

The Printronix LP844C gets the job done, enabling you to get on with yours.

The LP844C is the world's smallest A3 colour printer yet it is capable of print speeds up to 36ppm with HD colour quality, on the broadest range of media, and at an exceptionally low cost.

Affordable, versatile and built to deliver high quality results, the LP844C provides professional high-definition colour at speeds that meets the demands of your business.

With media handling capabilities that are unmatched in its class, the LP844C adapts to the specific needs of your business. Expansive paper handling capabilities of up to 2540 sheets, and an ability to handle media up to 256 gsm and up to 1.32m long gives users endless production capabilities in-house, on demand.

The straight paper path ensures effortless to run ultra-thick sheets for labels one moment and customer facing documents the next, and mono barcodes the next, making it the most powerful compact A3 colour printer in the market.

The LP844C provides unique media handling capability, in the most compact size, with ProQ quality output and exceptional returns on investment.
