WHEN RELIABILITY COUNTS

# ADD LEASING TO YOUR FINANCIAL PLAYBOOK

[www.printronix.com](http://www.printronix.com)

## EXPERIENCE THE BENEFITS OF LEASING-TO-OWN THE LATEST PRINTRONIX TECHNOLOGY

### OWN THE EQUIPMENT

A Dollar Buyout lease means you own the equipment at the end of the lease term.

### NO NEED FOR COMPROMISE

You don't have to postpone or delay putting the latest equipment and best technology to work for you. Enjoy productivity improvement with the right tool for the job.

### 100% FINANCING

Leasing offers you the productivity of the equipment or technology you require while meeting cash flow needs. Additionally, freight, installation, set up, and training costs can be included in the monthly payment.

### GUARD AGAINST INFLATION

Lease payments are fixed and allow you to pay for equipment at today's prices with tomorrow's dollars.

### PRESERVES CASH AND CREDIT LINES

Leasing is a proven way to conserve capital while acquiring needed equipment or technology. Leasing does not tie up existing credit lines and allows you to keep capital available for critical areas such as personnel, inventory, or advertising.

### LOW MONTHLY PAYMENTS

We can customize a lease plan to fit your budget needs. Payments can be lower than conventional financing.

### NO DOWN PAYMENT

This preserves and protects your cash flow, making your money available to work for you rather than sinking it into a depreciating asset.

### FLEXIBLE LEASE TERMS

Choose from a variety of lease terms to suit your individual needs. We will quote all options so you can make an informed decision.

### EASIER BUDGET FORECASTING

Fixed monthly payments allow you to accurately forecast budgets.
